Decisions, Decisions, Decisions ●

To make decisions quickly with the right people, no matter where they are, your employees need anywhere, any device real-time access to people and information.
A simple search finds people quickly in your contacts and directories and presence lets you know if they're available for a call, chat, or meeting.

When you're calling, meeting, or chatting with coworkers, UC-One Trio finds all the content you have in common, to help you make decisions on time and move work forward.
Because our UC-One Trio products are in the cloud, everything
is accessible in an instant.

Cloud Calling ● ● ●

If your business relies on predictable, reliable telephone calls, UC-One Trio is for you.

UC-One Trio products provide the highest quality carrier grade capabilities to keep your employees connected and productive from any device – laptop, tablet, or

UC-One Trio - your phone system in the cloud: ● ● ●

» Make and receive your business calls on any device you choose

» Have your business calls dial a group of team members all at once or in sequence, until someone answers the call

» Have an auto-attendant route all your business calls

» Move a call in progress from your laptop to your smartphone and vice versa

» Access corporate directories so you can easily find company experts

» One number
» Wi-Fi calling
» HD video
» Presence

» Transfer, hold, hunt
» Any device
» Easy access to directories

5

Messaging ●●

UC-One Trio products are ideal for your direct and group chatting, so you can have quick and engaging communications with your co-workers.

Exchange messages in real-time to minimize email overload. Instantly share files with a simple drag and drop. With universal search find what you need by searching across all of your people, messages and spaces. Everything is always available, so you never lose track of your chats and everything is safely archived.
» Direct and group chat
» File sharing
» Universal search
» History
» Easy access to emails and files

Meetings ●

Meet face to face, wherever you are. UC-One Trio - Softphone + Collaboration allows you to invite colleagues and guests to your private My Room meeting space, without the hassles of dial-in numbers and passcodes.

It's easy to host and join meetings from anywhere on your UC-One Trio client. It's so intuitive. Just one click gets you into the meeting. Experience meetings with crystal clear high definition video and audio that makes you feel like you're meeting in person.

Your teams are empowered to collaborate and engage just as effectively while apart, as when they're all in the same room.

» Meeting room
» HD video
» Screen share
» Guest Collaboration

Team Collaboration ●

Introducing spaces in UC-One

Spaces give you a persistent, dedicated work space for your team's communications. Set up spaces around the people and projects that are aligned with your work, such as the team you work on, a presentation, or a product launch.

Call, message, meet, share files, or share your screen directly from within a space. Always-on persistence means your work is instantly saved and searchable, allowing you and your team to worry less about organizing and more about getting things done. Access everything from your mobile device to stay on track, even when you're away.

» Project spaces
» Group messaging
» File sharing
» Smart notifications
